ALUMINIUM DOOR

• COLLECTION •

PANELS & DOORS

A thermally efficient range of doors ideally suited to the residential, light commercial & social housing markets.

EYG's Aluminium Doors utilise the UK extruded Comar 7P.i. ECO Door System designed to provide superior performance solutions for today's specification demands.

Tested to PAS 23 (General Performance for Door Assemblies), the doors perform well against the rigours of the Great British weather, reducing draughts and providing excellent weather proofing. This enables the doors to maintain their high performance even in the most extreme locations.

Security concerns are alleviated by the use of the superbly engineered and 'Secured by Design' approved Winkhaus Key-Wind Lock - a multi-point locking mechanism allowing our doors to exceed the requirements of PAS 24 (Enhanced Security).

To complete the collection, the Aluminium ECO Door range is available with various threshold options including low-rise for compliance with the Disability Discrimination Act (DDA). See the back cover of this brochure for door profile and threshold information.

EYG
PANELS & DOORS

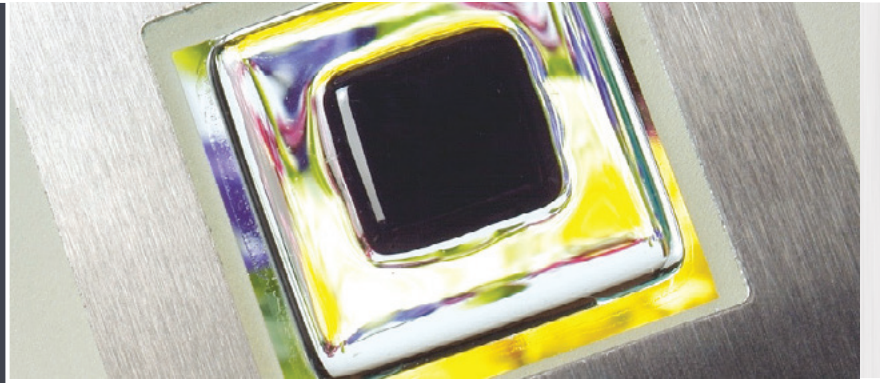

PROFESSIONALS IN GLASS

Door designs are enhanced through a vibrant and distinctive range of crisp, clean line **Sandblasted Glass** designs and as well as from a selection of stunning 3 dimensional textured **Fusion Glass Tile** designs.

Due to the limitations in photographic and printing processes, actual door and glass colours may vary from those illustrated in this brochure and should be used for guidance purposes only. EYG reserve the right to change product specifications without prior notice.

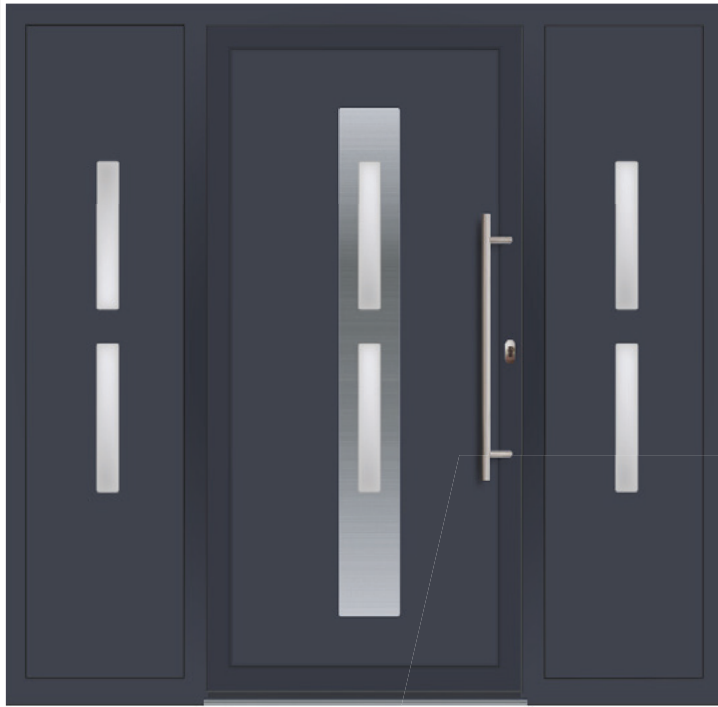

AVORIAZ 1 DOOR & MID-RAIL SIDEPANEL

Graphite Grey (RAL 7024) frame, door and side panel with mid-rail. Black Tahoe Fusion tiles and sandblasted door glass with stainless steel trim. Sandblasted house number side panel. 1000mm stainless steel in-line bar handle.

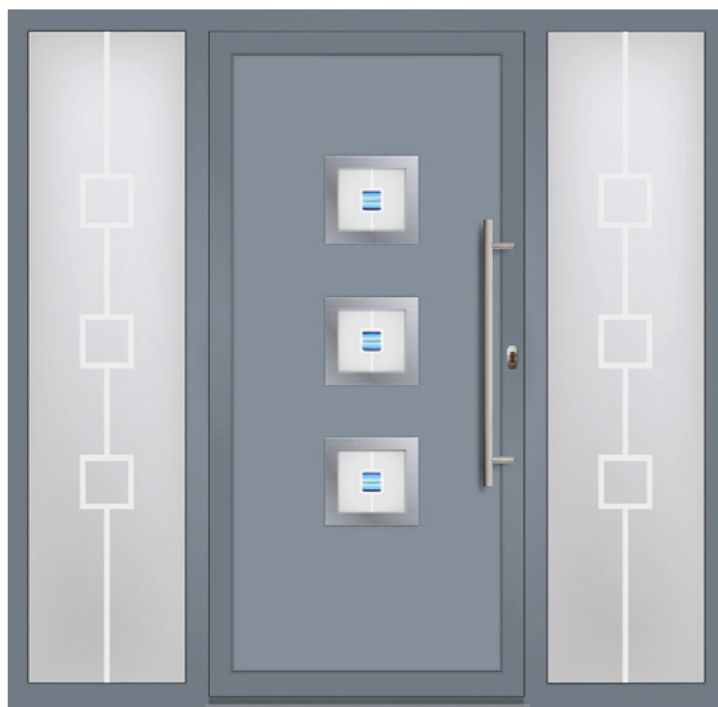

AVORIAZ 1 DOOR & SIDEPANEL

Pigeon Blue (RAL 5014) frame, door and side panel in-fills with stainless steel glazing trims. 800mm stainless steel off-set bar handle.

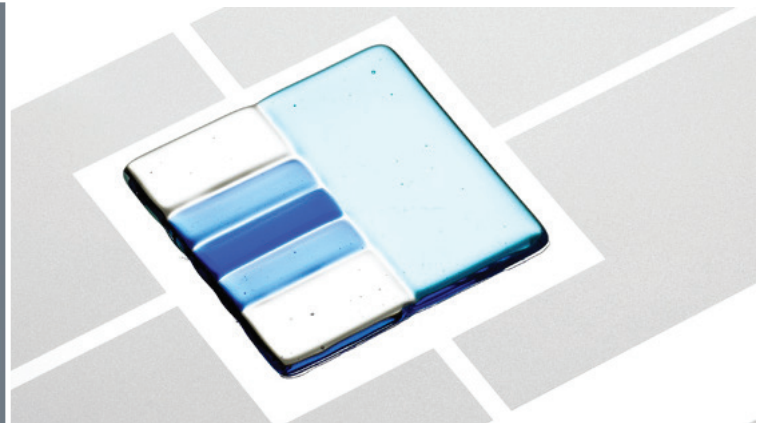

VALNORD 2

KEYWIND LOCK

EYG's **Aluminium Collection** of doors are fitted with **WINKHAUS COBRA** multi-point lock mechanisms as standard (a Winkhaus keywind lock option is also available if required).

Used with the stainless steel bar handles shown opposite, the keywind lock has the cylinder positioned at mid-door height. The lock is operated from the outside using the entry key with a keywind operation and from the inside with a keywind or thumb-turn operation.

DOOR PERFORMANCE

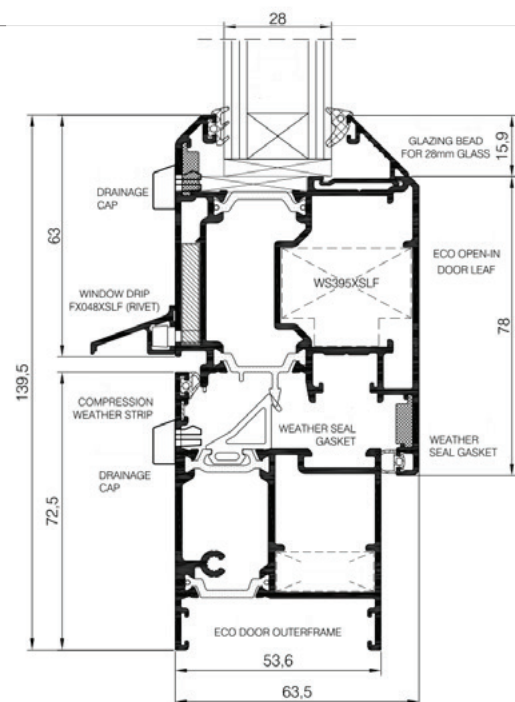

A general arrangement detailing the Comar 7Pi. ECO open-in threshold and below, the current manufacturing size limitations and thermal performance.

Size Manufacturing Limitations

Single Open-In door: 90kgs - 1100mm (W) x 2400mm (H)

Thermal Performance

Of a single door (CEN size) Opening-in is 2.00W/m²k

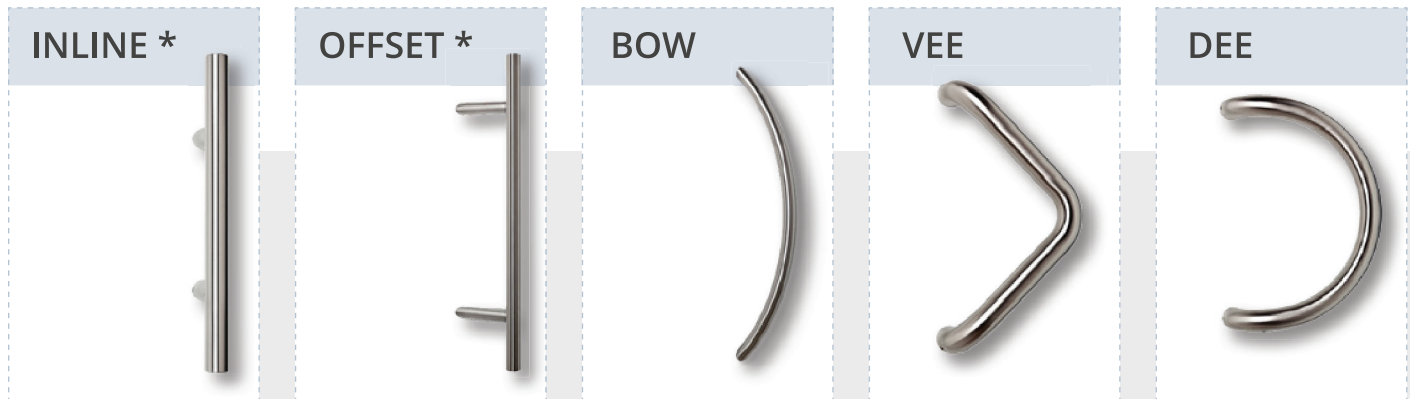

DESIGN CONSCIOUS

Brushed Stainless Steel Bar Handles

have been chosen to complete the look of the EYG Aluminium Collection creating a beautifully contemporary entrance door.

* Inline & off-set bar handles are available in 400mm, 600mm, 800mm, 1000mm, 1200mm, 1400mm and 1600mm heights.

Bow Handle Size: 500mm (cc) Dee Handle Size: 300mm (cc) Vee Handle Size: 300mm (cc) cc = fixing centre/centre.

DOOR FURNITURE

Manufactured from investment cast grade 316 austenitic stainless steel for ultimate corrosion resistance.

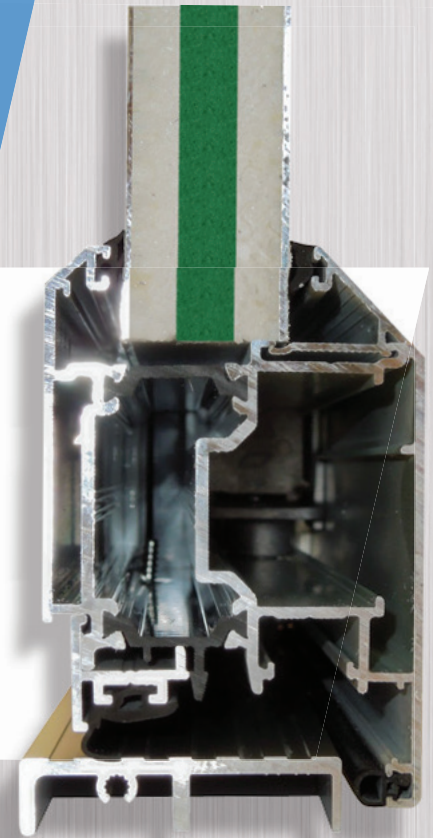

Matching brushed stainless steel door furniture is available including letterplates, door letters and numerals, contemporary style ingot knocker and traditional style Heritage door knob.

A thermally efficient range of doors ideally suited to the residential, light commercial & social housing markets.

The EYG collection of Aluminium Doors are manufactured to provide high performance solutions for today's specification demands.

Utilising Comar's trademark P.i. (Polyamide Insulation) thermal break technology, they deliver superior thermal performance and great looks through an aesthetic slimline 55mm profile.

- Comar 7P.i. ECO Door System
- Slimline 55mm Profile
- Winkhaus Key-Wind or Lever Multi-Point Locks
- Tested to PAS 24 For Enhanced Security
